

# Parenting Fund: Leadership Workshop

## What is the workshop about?

Leadership is a word that is becoming increasingly popular. Given the unique role which many charities play in supporting society, particularly the vulnerable, how is leadership defined and demonstrated within the third sector? What are the 'must-dos' and 'good-to-haves' of effective leaders within this sector?

Understanding these big questions will help participants exercise the type of leadership that will deliver the best outcomes for their charity and beneficiaries.

## What will I get out of the workshop?

Workshop participants will leave the day with an understanding of the different types of leadership and whether leadership in the third sector is any different. Workshop participants will also be signposted to where they can find out more about leadership development in the third sector and will be more informed to consider the type of tailored support they would like to receive from the Parenting Fund in the future.

**Please note that this workshop is aimed at Chief Executives, Senior Management Team and Trustees.**

## What aspects will be covered?

The workshop will include:

- Understanding different types of leadership
- Leadership in the third sector - is it different?
- Identifying effective leadership skills
- Exercising leadership at an operational level (planning, managing resources, delegation of roles and responsibilities, use of authority, time management)
