

# Parenting Fund: Networking and Collaborating Workshop

## What is the workshop about?

Information is power. Understanding how networking and collaborating with others can help your organisation is important. The extent to which organisations are linked in to local, regional and national networks can have a significant impact on awareness of and access to funding opportunities, as well as the ability to learn from and share with others.

## What aspects will be covered?

The workshop will include:

- Understanding the benefits of networking and collaboration
- Stakeholder mapping
- Developing protocols for partnership working
- Legal 'need-to-knows' about working with others
- Monitoring the effectiveness of networking

## What will I get out of the workshop?

Workshop participants will leave the day with an understanding of the benefits of networking and collaboration and a practical start on developing a stakeholder map and action plan for their organisation.

Workshop participants will also be more informed to consider the type of tailored support they would like to receive from the Parenting Fund in the future.

**Please note that this workshop is aimed at Chief Executives, Senior Management Team and Trustees.**

## Registration and queries
