One Plus One, the UK's leading relationships research organisation in partnership with the Parenting Fund, are offering you the opportunity to take part in their award winning e-learning relationship support course; *Relationship Support: an early intervention.*

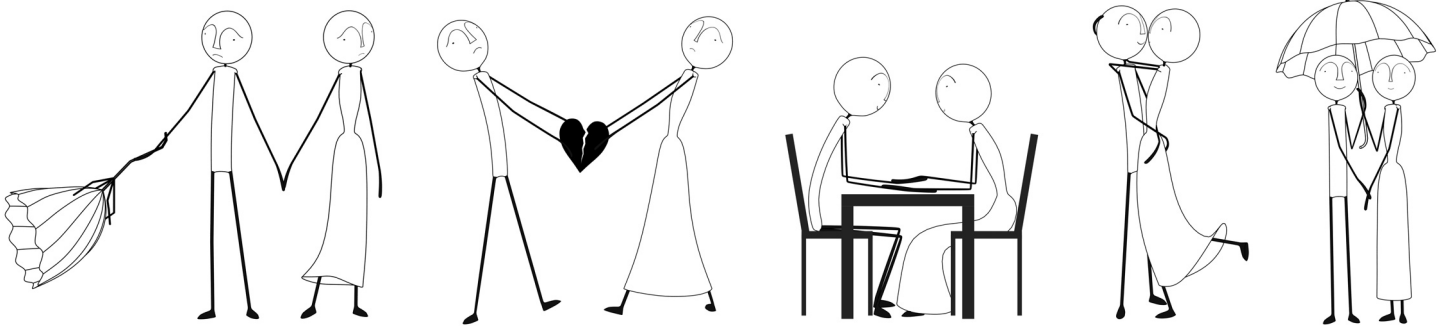

Relationship Support: an early intervention is designed to support you in your daily interactions with parents and families to give you the knowledge, understanding and skills to be able to respond in an effective way when parents 'turn to you' with a relationship issue. The course is based on the early intervention and prevention model used in One Plus One's long established Brief Encounters training.

Relationship Support: an early intervention is broken down into eight online modules covering new and extended material with enhanced insight and support tools available 24/7 so that you can work at your own pace and access the learning at your own convenience.

* One Plus One, won the Gold Award at the E-Learning Awards 2010 for the 'Excellence in the production of learning content - not for profit sector'.

The foundation modules of the course cover core relationship knowledge and skills whilst the specialist modules allow you to enhance your skills and understanding within a particular area.

Each module takes approximately 60 minutes to complete and at the end of each module you will be able to print a completion certificate.
